**Qualifications Profile:**

Dedicated and highly proficient front-end developer with specialized training, proven project management talents and undeviating commitment to creativity, efficiency and productivity. Versatile team player with excellent written, verbal and visual communication skills. Well-organized professional with exemplary coding, multi-tasking and time management abilities.

**Professional Experience:**

Senior Front-end Web Developer | LMO | August 2014-Present

I write accessible HTML, CSS and JavaScript using the latest web-standard technologies, ensuring code is cross-browser and cross-device compatible. I collaborate with UI/UX and LAMP team members to ensure we produce attractive and high-performing websites while working with project managers to ensure that projects stay within timeline and budget.

Front-end Web Developer | Planit Agency | May 2012-August 2014

Worked closely with designers and project managers to produce on time, on budget and award-winning work for a variety of clients and industries. Focused on pixel-perfect, cross-browser compliant websites built with HTML, CSS and JavaScript. Worked primarily in WordPress and Concrete5 CMS platforms.

Front-end Web Developer | G.1440 | August 2010-2012

Turned completed design files into valid, cross-browser compliant HTML and CSS for use in WordPress, .NET and DotNetNuke. Created custom WordPress themes utilizing third-party widgets and custom jQuery as needed. Designed and coded HTML emails for primary use in Publicaster and Bronto Email Management Systems.

## Speaking Engagements:

**Intro to Web Concepts Instructor**
Girl Develop It Baltimore, 2015

**Introduction to HTML/CSS Instructor**
Girl Develop It Baltimore, 2015

**Introduction to WordPress Instructor**
Girl Develop It Baltimore, 2014

## Professional Experience Continued:

**Web Designer | Custom Direct, LLC | December 2008-August 2010**

Consistently provided strong design expertise, HTML & CSS knowledge and analytical insight to accurately maintain cross-browser compliant e-commerce websites. Supported Email, SEO and Affiliate Marketing departments with brand standardized landing pages, banner advertisements and email campaigns that were compatible with major email clients. Produced creative concepts and followed through with semantic mark-up, clean code and CSS while using efficient time management to consistently meet project deadlines.

**Graphic Designer | Custom Direct, LLC | September 2006-December 2008**

Effectively guided projects from design conception to pre-press production. Worked closely with product managers to build visually appealing brand designs and advertisements. Created departmental and committee printed materials using memorable design themes, graphics and illustrations. Produced inventive and original products for a customizable online stationery website.

## Education:

**Web Technologies Certification**
Online courses through IWA September 2008 - September 2009

**York College of Pennsylvania**
Bachelor of Arts Graphic Design December 2005
